## We can make a positive difference to your project!

**Engineering:** Using the best of HDD and microtunnelling techniques for pipeline crossings up to 3 km in length and diameters up to 1,200 mm.

**Modern Equipment:** A modular fleet of HDD spreads - 40 to 435 tons of pulling capacity - fit for the most challenging climate and geological conditions.

**Unmatched Expertise and Safe Operations:** 33 years of continuous experience with more than 2 million metres of drilled crossings safely installed in over 40 countries.

HDI operates according to the **highest standards**. Today the company is certified **ISO 9001, ISO 14001 and OHSAS 18001**.
